Marker#2 917 Piles, 12 Sizes, 11004 Garments

Marker#4 44 Piles, 12 Sizes, 528 Garments

# EAZY PLAN

## CUT - PLAN AND ROLL ALLOCATION

Arrive at the best and minimum number of marker combinations to complete the order.

Allows user interventions to override & insert preferences at any stage.

Integrated with "Eazy Nest++ and Eazy Nest Pro" to seamlessly process markers and arrive at total fabric requirement.

Automatically allocate the markers to available rolls - filter by shrinkage, shade and width.

Minimize wastage due to end bits!
